

EC - REACH Declaration

Manufacturer: DIS Sensors bv

Device: All sensor products

Goal: REACH is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the EU chemicals industry. It also promotes alternative methods for the hazard assessment of substances in order to reduce the number of tests on animals.

Definition: In terms of the European Regulation 1907/2006/EC (REACH) DIS sensors is a so called "downstream user".

We do not manufacture or modify any chemical material. We do not import any chemical material in quantities equal or above 1 ton per year.

We use our chemical materials as specified by the producers only. The products we supply are solely non-chemical products. Under normal- and reasonable foreseeable circumstances or use our products shall not release any substance.

Therefore, according to Regulation 1907/2006/EC, none of our products needs to be registered and no Material Safety Data Sheet is required. Registration of chemicals used are registered by our suppliers.

Declaration: Manufacturer declares, on his sole responsibility, conformity of its sensor products according to all CE Regulations specified below

Regulations: 1907/2006/EC (REACH)

Date: January 2016
